ACTIVITIES OUTLINED FOR NEW CHAMBER OF COMMERCE

A Number of Committees Have Been Appointed for Specific Duty

GROUP MEETINGS IMPORTANT

The General Chairman and the Executive Committee for the Expansion of the Chamber of Commerce met yesterday with the Installation Director of the American City Bureau, E. G. Kingsbury and outlined the plan of work for the next four weeks.

Mr. Kingsbury called attention to the fact that a Constitution and By-Laws should be adopted and recommended a standard form used by practically all the modern Chambers of Commerce. The following committee was appointed to look them over and make suggestions and to submit same to a meeting of the entire membership for adoption: Hugh F. Fergus, Chairman, K. W. Daly, Walter Byerly and John B. Schafer. This meeting will beheld at an early date.

Harry Scott, J. K. Steinbaugh, Harry Geho, C. C. Bliss and Joseph Haube were appointed to take charge of theelections, two of which will be held, a primary election and a final election.

One of the important features of the new Chamber will be the Group Meetings at which the entire membership will have the opportunity to express just what activities they believe the Chamber of Commerce should undertake during the first year. From the answers brought out at these meetings will develop the Program of Work. These meetings will be planned by Walter Byerly, Chairman, H. L. Swickey, and R. H. Rush.

Roy Carson was appointed Chairman of the Forum Committee. The question of the Chamber being incorporated was brought up for discussion and was referred to David M. McCloskey, Esq.

Letters are going out today to plural subscribers asking them to assign immediately the memberships held by them to some individual and to forward the names to the headquarters office so that each person so named will be eligible to be voted for in the coming election for the Board of Directors.

MANY FARMERS OWN AUTOS AND TRUCKS

Twelve hundred and nine farmers in Fayette county own their own automobiles and 254 of them possess trucks, according to information disclosed by the 1920 census figures. Fifty-five out of every hundred farmers in Pennsylvania own an automobile and in many instances several; seven out of every hundred purchased their machines in 1920. York county leads with 4,221 farmers owning autos, while in Cameron only 90 own cars.

ELKS HOLD DANCE ON FRIDAY EVENING

The committee composed of Wm. Vetzer, Frank H. Delvaux, Gilbert Zimmerman, Wm. Mathias, and S. W. Sharpnack, have announced a dance to be held at the Elks' Club Friday evening, January 28, 1921, in the ball room, the hours to be from 9 until 1. Music will be furnished by Reed's famous saxaphone-banjo orchestra from Parkersburg, W. Va.

WANT FULL HOUSE FOR DR. ACHESON

Much interest is being shown in the coming appearance in Charleroi of Dr. John Carey Acheson, president of the Pennsylvania College For Women, who will make the address to the class at the graduation exercises on Thursday evening, at the high school auditorium. Owing to Dr. Acheson's high standing as an educationalist, and also from the fact that he will deliver a message well worth hearing, it is the desire of the school officials that he be greeted with a capacity audience. A splendid program has been prepared, and a delightful evening is assured. There will be no admission charge. An adequate number of seats, to accommodate the relatives of the graduates, alone will be reserved. The exercises will commence at eight o'clock.

ATTEMPT TO FIRE THE VESTA TIPPLE

Shortly after 10:30 o'clock Thursday night last fire bugs, it is alleged set fire to the Jones & Laughlin tipple, near Coal Centre. The total loss was about $200.

Fifteen minutes after they had fired the tipple they are alleged to have applied a torch to a small frame dwelling house near by, which was unoccupied. The blaze was extinguished before any damage was done. The work is believed to have been that of the same terrorist gang which a few days prior attempted bombing of the foreign settlement of that district.

WERE MARRIED THIS MORNING IN ST. JEROME'S

Louis Alterici, son of Mr. and Mrs. Angelo Alterici, of Washington Ave., and Eva Cotton, daughter of Mr. and Mrs. Gustave Cotton, of Fallowfield Avenue, were married this morning at nine o'clock, at St. Jerome's church, Rev. Wm. D. Fries officiating. The witnesses were Francis Hornbake and Miss Julia Ierroux.

United States Mine Rescue car No. 3 arrived at Brownsville, Saturday, to remain for about two weeks, to give rescue instructions to the different mine rescue teams in that vicinity.

Class Night Exercises Were Very Interesting

The class night exercises of the Mid-Year Class of 1921, held at the high school auditorium, last evening, was one of the most enjoyable events of this nature ever held in connection with any of the previous commencement activities of the Charleroi high school. The program was an exceptionally good one, and its presentation reflected credit on each participant. Heretofore it has been the custom to hold the class night exercises on the same evening as the class play was given. This year, the belief of the graduates was that a change would not go amiss. Consequently, it was decided to observe this event as a separate attraction. The deviation from the customary routine proved an innovation which was much enjoyed, as was indicated by the continued manifestations of approval of the large audience present. Space will not permit of an extended reference to the different participants, suffice to say that all interpreted the part allotted them in a most meritorious manner, and that their combined efforts conduced to an evening's genuine pleasure.

SMITH, THE FIREBUG, TO STAND TRIAL

That it is the intention of Albert Smith, self confessed firebug, to stand trial at the March term of the Fayette county criminal court, was learned authoritatively last week. Both the prosecution and the defense have prepared their cases for trial. Smith, according to signed confessions held by the authorities, will be charged with arson and felonious arson, on eleven counts, preliminary hearing of which was accorded five days after his arrest before a Uniontown alderman.

It is said that Smith will deny all knowledge of the fires, claiming that his mind was a blank at the time he is alleged to have committed the deeds. The trial will attract a great deal of attention when it comes up in court.

BROWNSVILLE MASONS HOLD CELEBRATION

Last Saturday, January 22, marked the one hundred and twenty-seventh anniversary of Brownsville Lodge No. 60, F. & A. M. This lodge, which was constituted January 22, 1794, has the distinction of being the oldest lodge west of the Allegheny mountains. It also has the honor of having entered the Marquis de Lafayette, and General Jackson.

The members of the lodge fittingly celebrated the event on Monday evening, at which time a number of prominent visiting speakers were present. A banquet was a feature of the evening, at which covers were laid for over two hundred guests. A number of members of the Masonic fraternity from Charleroi attended the event.

Remember your head. W. S Cook and Co. Monuments with Lawrence Frye Funeral Director 208tf

EXECUTORS FILE THEIR FIRST ACCOUNT

Thomas Elliott and Jacob Elliott, executors of the will of Thomas E. Lilley, who died in East Pike Run township on January 5, 1920, and the residuary portion of whose will was set aside by the Orphans' Court of Washington county last week, have filed their first and partial account at Washington, showing a total of $1,154,093.72 of the estate administered against which the executors claim credit amounting to $359,011.09, leaving a balance for distribution of $795,681.73.

The account recites that a portion of the balance for distribution is made up of stocks which the various parties interested in desire to take in kind. Among the large items paid out as shown by the account is $87,611.64 paid as Transfer Inheritance tax to the State of Pennsylvania, and $168,565.04 estate tax to the Federal government.

A considerable portion of the estate yet remains to be administered. Coal royalties are accruing at the rate of about $150,000 per year.

MONESSEN NOW A THIRD CLASS CITY

Governor William C. Sproul has approved the charter of Monessen as a city of thethird class, and the document has been forwarded from the Capitol. This is the second third class city charter to be issued within a month, Sunbury having received such a document a short time ago. Chartering of these two cities raises the list of third class cities to 38. The two new cities will hold their first municipal elections next fall, at which time a full complement ofofficials will be selected.

COYLE THEATRE

NEW HIGHWAY WOULD BENEFIT THIS SECTION OF THE COUNTY

Proposed "Ocean to Great Lakes" Project to be Boomed by Gathering

CHARLEROI TO BE REPRESENTED

A number of members of the good roads committee of the Washington Chamber of Commerceheld a meeting on Monday afternoon, in the interest of the gathering at East Liverpool, O., on February 9, when the "Great Lakes to Ocean" highway project will be launched.

Building of this road means much to Washington county, for it will connect this section with all the important national routes, improving traveling conditions as well as business by increased traffic. It is expected there will be a large representation at the East Liverpool meeting.

In arranging for the delegation a committee headed by Ben F. Mevey, Jr., will visit Greensburg and Westmoreland county and other points during the next week. Another with James P. Eagleson as chairman will go to Monongahela valley points, while R. L. Munce and J. M. McKee, county agriculturist, will interest citizens of the northern section of the county.

The "Great Lakes to Ocean" highway movement was fathered by the Washington County Good Roads Association, to overcome needs made manifest during the war—a route that will eliminate Pittsburg and its traffic congestion and shorten traveling distance by means of connecting links.

The plan contemplates the improvement of a road commencing at New Alexandria, on the William Penn Highway in Westmoreland county, extending through Greensburg where the Lincoln Highway would be intersected, then to West Newton, Donora, Monongahela, crossing the Gilpin Trail to Washington, where it joins the National Pike and meets the Black Horse Trail and the Perry Highway Extension. Turning then northwest through Hickory and Burgettstown, intersecting the William Penn Highway at Florence and continuing on to East Liverpool, where the proposed improvement would join the Lincoln Highway.

The East Liverpool Chamber of Commerce is making the occasion "Good Roads Day," and has requested the Washington chamber to furnish one of the speakers for the Good Roads dinner that day. The conference or convention will be held in the afternoon and will include representatives from Washington, East Liverpool, Chester, Cleveland, Ravenna, Bedford, Burgettstown, Canonsburg, Monongahela, Donora, West Newton, Monessen, Charleroi and Greensburg.

The American Window Glass Company's plant at Kane, Pa., resumed operations on Monday, after a suspension of one month. Five hundred employes returned to work at a wage reduction of 15 per cent.

COUNTY SEAT TO HAVE NEW LIGHTING SYSTEM

Washington, Pa., is to have a new lighting system, if the Public Service Commission approves a contract between council and the West Penn Power Company. The old lights are to be supplanted by incandescent lights, and in the business section these will be of sufficient illuminating power to make the street "look like the great white way."

EXCITING GAME AT HIGH SCHOOL GYM.

The basket ball game to be played on the local floor this evening, with Monongahela City as the attraction, will undoubtedly prove to be one of the most interesting contests ever indulged in before a Charleroi audience. The players from the adjoining city, with McVicker, an unquestionable star at their head, are worthy foemen, and Coach Stahlman's boys are all alert to this fact. Nevertheless, the latter have taken the measure of four teams in the scholastic league—Canonsburg, Duquesne, New Brighton and Donora—and have yet to loose their first game, this season. It is not their intention of doing so this evening. Therefore, an exciting contest may be anticipated. A large crowd will be on hand, many of them accompanying the team from Monongahela.

UNEMPLOYED BLUE BLOOD.

The present army of the unemployed is recruited from the ranks of the blue-bloded as well as from the proletariat. Monarchs out of business are very common, especially in Switzerland. Many grand duchesses, archduchesses and less high-placed ladies of quality are also said to be waiting for a job in the second-class pensions of both Swiss resorts and of Paris. Marriage is about the only possible job for these latter, and it is not surprising to learn that they are now less particular in the choice of life-partners than formerly. We read of a want advertisement setting forth that a charming archduchess, accomplished musician, with knowledge of several languages, brought up in luxury and now tired of a misspent existence without money would marry rich and refined American or English gentleman."

This charming archduchess, who frankly adds that "parvenus and individuals of other nationalities" need not apply, would take an "English gentleman," but would doubtless prefer a "rich and refined American," money being the avowed object. Moreover there is a tradition that all Americans are "sovereigns" and this by itself might help to reconcile her to such a come-down. In the past only American women could trade money for titles, but the great upheaval of the World War has opened the door of opportunity also to American men—with money. Even now our rich men must do without titles, but it looks as if they can bring into their families bluer European blood than has ever been annexed by any but a very few American heiresses. Apparently the rich American desirous of that brand of blood in his offspring has only to say the word—and sign the checks.

OUR WEALTH.

Do you have $997.50 and during 1919 did you save $125.10?

If you do not have almost $1,000 in your possession, then, according to compilations made by the Pennsylvania Department of Internal Affairs, you have fallen below the average per capita wealth in Pennsylvania.

Records in the Department of Internal Affairs show that Pennsylvania's wealth or resources in 1919 totaled $13,455,042,634.58. With 8,720,159 people in the State, the records would indicate that every person, if the State's resources were divided, would be the possessor of $997.50 in either money, real estate, personal property, or live stock.

According to the department's figures, banks, trust companies and other saving institutions during 1919 held savings of Pennsylvanians amounting to $1,526,715,266.71. These figures would indicate that every person in the State had saved in these institutions a total of $125.10.

So far as per capita wealth in the State goes, Lebanon County in 1919 was the wealthiest county in the commonwealth, the per capita there being $3,606.30 or almost four times the per capita of the State.

In Washington county the per capita savings are $142.33, and the per capita wealth $1,195.06.

CLEAR THE COURTS.

The excuse for mob law in any community has always been the delays of the courts—the uncertainty of punishment through the regular processes of law. Courts have been clogged with cases that have lain for years undetermined. Judges have been more than ready to grant continuances, delays, motions, stays and other writs which have taken time and have resulted in such a series of delays that a crime is well nigh forgotten before final sentence is pronounced.

The courts of Chicago have taken matters in hand and have determined to clear the accumulation of years. Policemen said it was useless to arrest criminals, they could never be tried. The judges got together and decided to adopt a slogan, "A trial within ten days." If this is adhered to, what a deterrent it will be to crime and criminals.

Many criminals have felt that they could "wear out" the courts—that they could put every legal quibble in the way until finally all those really interested in the case have died or gone to other places, then they would escape scott free. There have been instances of this, and the Chicago experiment will be watched with interest in other states.

PERSONAL RESPONSIBILITY

One very important development of the reconstruction period is the tendency of men to take more responsibility. During war time there has been too much disposition to put everything on the government. Men have not realized that they are the government. They have looked upon the government as some intangible something, some aggregation of men down at Washington, who by the magic of their touch, by the fiat at law, could make the people rich and accomplish other miracles.

The government can do nothing except as we, the people, give them the power. All power is in the people, and congress is delegated to perform certain work. The final responsibility for the prosperity of the country, or for a panic, must rest with the people. It is an individual matter—it rests on you and us, and when we assume our full share of this responsibility things will go forward as they should. Whether in National, State, Local or family affairs, the individual is what must count—and placing individual responsibility will be the greatest work of reconstruction.

John F. Kramer, Federal Prohibition Commissioner, is quoted as saying that he will be dead and gone before this country is dry, "public sentiment" being necessary "behind a prohibition law to make it effective." What kind of public sentiment, wet or dry? There is certainly no question about the existence of the latter, for it has just caused the House of Representatives to increase the enforcement appropriation to $7,100,000

ED..6.. 6 ..6..6 ..6 ..6 ..6..6..6

A tenderfoot would naturally see extraordinary hardship in the everyday life of the hunter or trapper in thesnow-covered forest country of Canada or upper Maine. Four days of such tramping with nothing but carrier pigeons to eat was very unpleasant, of course, but from all the talk one might suppose that those three naval ballonists had been sitting on the North Pole with frozen legs dangling under them for about four months.

Since it became widely known that he is the father of 34 children Reuben Bland of Robersonville, N. C., has been "deluged with letters from all over the United States and Canada." Evidently information is wanted as to how the 34 children hit it off with old H. C. L.

MONESSEN MAY HAVE A MODERN THEATRE

A big real estate deal was closed in Monessen a few days ago, whereby Dennis F. McCahill and associates have taken over the Eggers & Graham holdings at the corner of Donner avenue and Fourth street in that city, on which are erected a number of frame buildings. The property fronts 88 feet on Donner avenue and runs back on Fourth street a distance of 120 feet, the consideration being $52,000. It is the intention of the purchasers to build a theatre thereon, at a cost of approximately $150,000, and which will have a seating capacity of 2,000. Work on the new project is to begin as soon as weather conditions are favorable.

CHEAT RIVER DAM MAY BE COMPLETED

It is asserted on good information that a Pennsylvania West Virginia dam building and improvement company had surveyors and construction experts in the Cheat Haven district during the past week in anticipation, it is said, of completion of the Cheat Haven dam, construction of which was begun approximately about ten years ago.

About $500,000 had been expended on the venture, one firm having gone into bankruptcy. The dam building was begun in 1910 by the Kuhn interests of Pittsburg. Actual resumption of work, it is said, will depend upon the enactment of new legislation by the West Virginia legislature. Interests controlling the project are understood to contemplate completion only following enactment of more favorable laws in the mountain state.

FIELD SECRETARY IS NOW ON THE JOB

E. G. Kingsbury, Field Secretary for the American City Bureau, accompanied by his wife, arrived in the city yesterday to take charge of the Installation Work connected with the new Chamber of Commerce. Mr. Kingsbury has had considerable experience in Chamber of Commerce work having been associated with a large number of successful organizations among them being Bethlehem, Pa., Yonkers, N. Y., Wellsville, Ohio, Waynesburg, Pa., Port Jervis, N. Y., Ilion, N. Y., Woonsocket, R. I., Perth Amboy, N. J. and Great Barrington, Mass. He also was one of the organizers of the State Chamber of Commerce for South Carolina. He will be pleased to have any member of the Chamber call upon him in his office at the Municipal building.

TRIO CLEANS UP BIG SUM ON BOOZE ORDERS

Here's the very latest, as furnished by the County Detective's office of Fayette county, proving conclusively that the three nationalities represented as allies in a decidedly clever booze ruse are getting their full share of "suckers" particularly among the so-called "wise ones." A Greek, a Jew and an Italian have banded together and for the past ten days have been canvassing Fayette county the mining districts generally, taking cash orders for whiskey, at $60 per case, money paid in advance. The trio, it is claimed, has cleaned up about $5,000. Not one case of the strictly "cash in advance booze" has been delivered.

LITTLE MOTHER HAPPY AGAIN.

"For the past nine years I have been very much distressed with bloating and stomach trouble due to constipation since I was a child. No medicine gave me more than temporary relief. I got so bad I was afraid I would have to leave my three little children. But since taking a course of Mayr's Wonderful Remedy two years ago I have been entirely well: no constipation or other trouble." It is simple, harmless preparation that removes the catarrhal mucuc from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. All druggists.

If you want to pay $200 for the privilege of shooting a tame buffalo, go to Antelope Island, Salt Lake, Utah. Some of the sport might interest a Fairbanks Ranch or a make-believe Nome of the movies, but the proposition is likely to tempt real sportsmen into picturesque profanity. The emotions of the late Buffalo Bill, for example, may be readily imagined.

SUFFERED SEVEN LONG YEARS

Finally Relieved by taking Lydia E. Pinkham's Vegetable Compound

Ravenswood, W. Va.—"For seven long years I suffered from a female trouble and inflammation so that I was not able to do my housework. I consulted several doctors but none seemed to give me relief. I read in a paper about Lydia E. Pinkham's Vegetable Compound so I decided to try it, and before the first bottle was gone I found great relief so I continued using it until I had taken eight bottles. Now I am very well and can do my own housework. I can gladly recommend Lydia E. Pinkham's medicine to suffering women."—Mrs. BERTHA LIERING, R. F. D., Ravenswood, W. Va.

The ordinary day of most housewives is a ceaseless treadmill of washing, cooking, cleaning, mending, sweeping, dusting and caring for little ones. How much harder the tasks when some derangement of the system causes headaches, backaches, bearing-down pains and nervousness. Every such woman should profit by Mrs. Liering's experience. Remember this, for over forty years Lydia E. Pinkham's Vegetable Compound has been restoring health.

KREW-PINA BEST SHE EVER USED!

Knocks Colds Overnight Relieves Bronchitis and Tonsilitis, Heals Burns Cuts and Bruises

A lady from the south writes that Krew-Pina is the best ointment she ever used. This is only one of the dozens of testimonials we have of the good work Krew-Pina is doing.

Krew-Pina is a general household ointment that has proved its merit in the treatment of colds and coughs by the quick action obtained. Very frequently when the ointment is applied upon retiring, the cold is gone in the morning. Splendid too for bronchitis and tonsilitis. Effective in the treatment of all internal and external inflammation. Corns, bunions and tired aching feet are soothed and comforted by Krew-Pina. It also is good for lame back and sore joints. Heals insect bites and relieves sunburn and windburn. Headaches and neuralgia quickly disappear under treatment with Krew-Pina and it is particularly good for treating the hurts and ailments of little children for it does not blister the skin. Little ones obtain quick relief from dangerous croup and whooping cough by an application or two of Krew-Pina. Contains no injurious or harmful drugs.

Free Sample of Krew-Pina WILL BE SENT TO ANY ADDRESS ON REQUEST.

Two Days Until Friday—Just Two Days to Wait for

Boggs & Buhl's Remnant Day —Friday, January 28th

This year greater than ever—further heavy price cuts on the already extremely lowered prices of today.

Every department searched over—all remnants, odd lots, surplus—likewise plenty of regular stock RED INKT for the day—marked at prices that will sell them as fast as customers can be served.

If you can't come Friday—Saturday is another wonderful day of opportunity.

Boggs & Buhl

THE FRANKLIN

Franklin owners can make authoritive comparisons because 95 per cent of them have previously owned other cars.

We recently asked a large number of them to name the Franklin advantages. Here are the results, in order—

1. Riding comfort
2. Tire mileage
3. Gasoline economy
4. Direct air cooling
5. Easy handling.
6. Low upkeep cost

The Franklin is what it was designed to do when its principles of light weight flexibility and direct air cooling were adopted 19 years ago.

Any motorist can easily make further comparisons with these Franklin owners' figures.

20 miles to the gallon of gasoline
12,500 miles to the set of tires
50 per cent slower yearly depreciation

Woodward Garage

NIMBLE DOLLAR SALE

Says Old Man Dollar: "Gee! But I've had a great time watching the surprised faces of the folks who have renewed their old friendship for me at Berryman's the last few days and I guess a lot of them were expecting to find me sort of pale and still weak in the knees, but you should have seen them smile when they found me hale and hearty. Bigger than I had been for years and ready to go to work for them on the old basis. I'm thanking Mr. Berryman for giving me back my pep and I hope to see you all tomorrow, for that's the last day of the "Nimble Dollar" Sale. Come in while your Nimble Dollar will still buy $1.10 in merchandise in addition to the already way down clearance prices.

TOWING STEAMERS HAVE DOUBLE CREWS

As an indication that general industrial conditions are improving to a considerable degree along the river it was noted on Monday that practically all steamers now in the towing service were running double crew, while it was reported that the coke ovens of the Frick Company at Ronco and Denbo would be placed in blast.

NEW SERVICE BOAT AT LOCK NO. FOUR

A gasoline battleship tender, designated the "P.-G." arrived at Lock No. 4 on Saturday, and will be used as a supply and tender boat in and about the government boat yard. The boat came to Lock 4 by way of the Mississippi and Ohio rivers from New Orleans. She is about 60 feet long and 12 feet beam. the design being for ocean going service. The launch is equipped with modern gasoline engines, and will be quite an addition to the equipment at the local boatyard.

On its first trip out on Monday with a load of supplies for up-river points, the engines of the launch refused to work and for a time it was feared the craft would be swept over the dam. However, a yawl was quickly launched and a line run to shore, which saved the boat from destruction.

PINCHOT WINS FAVOR, BUT LOST THE BOUT

Before the Olympia A. A. in Philadelphia, Monday night, Young Pinchot, the clever Charleroi boxer, put up a sterling fight with Jack (Kid) Wolfe of Cleveland in an eight-round bout in the semi-windup. Wolfe, with experience and weight in his favor, won the popular verdict by general agressive work. Wolfe weighed 122 pounds, while Pinchot tipped the beam at 118 1-2. This difference in weight told heavily in the last two rounds, when Wolfe gained the decision. Pinchot's right eye was closed in the fourth round, from a terriffic right-hand swing, but he pluckily fought on to the finish. The crowd gave him an ovation as he jumped out of the ring at the end of the bout. "Bricky" Ryan, also of Charleroi, won the best preliminary bout, by conquering Terrance O'Brien. The set-to was sceduled as a six round go, but O'Brien's seconds threw up the sponge in the fourth.

WILL OPEN NEW MINE IN THE SEVENTH POOL

The Hillman Coal and Coke company of Pittsburg contemplates the opening of its coal property on the right bank of the Monongahela river in the seventh pool. Plans are now being prepared for a modern tipple and loading dock with the necessary adjuncts, pile dolphins and ice breakers for the protection of the river craft. This will open one of the richest coal tracts in the district being directly west of the now famous Masontown district.

RICH, SOFT GLOW

On Furniture Attained with Crudoleum

You cannot appreciate how beautiful your furniture can be made to look until you have actually used and tried CRUDOLEUM.

It has made one of thetasks you used to dread(simple and easy. Just keep your dust cloth slightly moistened with CRUDOLEUM, and then polish as you dust. There is noextra labor to it at all, or no extra time consumed. The expense is practically nothing when you use CRUDOLEUM.

J. J. John sells a large half pint bottle of CRUDOLEUM for only 35c and is authorized to refund your money if you arenot delighted with it.

The frequent use of CRUDOLEUM gives an added home comfort. You will learn to trust it to keep your furniture bright and attractive. If your druggist does not keep it, send us 40c and we will forward a bottle by return mail. Wm. M .Simpson Drug Co., Wholesale Druggists. Wilkinsburg Station. Pittsburg, Pa.

SAYS RIVER ROAD IS NOT "NAVIGABLE"

The Roscoe Ledger of last week says: "The fact that the road leading out of this town has been in such a deplorable condition during the past week, prevented taking to the County Home two aged people who are unable to travel by train. Nick George and his aged wife were committed to the home this week, and kind neighbors cared for them and prepared them for the journey to Arden. Repeated efforts to get any one who would risk their automobiles on the road between here and Charleroi failed. One of the poor directors who knew it was impossile to enter this place by way of the road suggested they be taken to Brownsville on stretchers and from there to Washington in an ambulance."

ANOTHER TICKET FOR SALT RIVER

Another "Salt River Ticket" is furnished The Mail which was issued in November, 1896. The ticket is the property of Russel Metz, and states that it is good for a "Free Pass to Salt River; Charleroi to Salt River Bottom." The Pop, steamer "Willie Bryan" was scheduled to leave the shovel works' landing, with all the Pops, (except Pop. Golden,) on board, and with a list of well known citizens in charge of the steamer,such as Jay P. Williams as Captain; Jas. B. Ryan first mate; Col. B. T. Hastings, second mate; Charles Crabb, engineer; Geo. Michiner, fireman; Dr. McFadden as ship's doctor and Hen. Swickey as barber. The election that year was featured by Bryan's "crown of thorns and cross of gold" slogan, which was swept into the discard by the election of William McKinley.

Congressman Temple of Washington has received notification of his election to membership in the executive council of theAmerican Political Science Association and his many friends are congratulating him on the honor thus bestowed.

KOMA TAKEN TO THE WASHINGTON JAIL

Frank Koma, alias Frank Smith, of Webster, charged with having set fire to the yards and shop of the Donora Lumber company last September, was taken to the Washington jail on Saturday last from Uniontown by the State Police. A charge of arson was preferred against him before Justice of the Peace J. F. Carmichael by Edward E. Beisel of the state constabulary, and in default of $5.000 bail, he was committed for trial.

Notice

I have sold my store, located at 1014 Fallowfield avenue to Dino Frati, who will conduct it in the future. Any patronage extended him will be appreciated.

Pete Pagini.

WILL LENGTHEN STEAMER ELSEY

The steamer Warren Elsey of the Vesta line, has been withdrawn from the towing trade for the purpose, it is said, of having a general overhauling. It is reported that 20 feet will be added to the length of the boat, which it is believed will make her more serviceable.

WILL SOON BE READY TO SHIP COAL BY RAIL

The Tippy-Anna coal mine on the S. S. Bayard farm near Carmichaels in Greene county will begin operations in about ten days. The Hill Top vein, which is eight feet thick at that point, will be taken out at the Monongahela river, and the product will be shipped both by rail and river. The Tippy-Anna mine is located about one mile south of the Crucivble Coal company's plant.

Adults 28c Children 11c, After 6; 17c.

DINTY ON TRAIL OF GIRL KIDNAPPED BY CHINESE

One of the best attractions of a decade will be the entertainment offering at this theatre on Wednesday and Thursday. It is "Dinty," in which Marshall Neilan presents Wesley Barry, the freckle-faced boy actor in the first starring vehicle of his youthful career. Neilan wrote the story and directed the production, which is his latest release through Associated First National Pictures, Inc. It is the tale of a fighting newsboy, who has an old Irish mother to support. San Francisco's picturesque Chinatown is the locale for some of the scenes, and the photoplay is replete with dramatic as well as amusing incidents. Among the unique characters who appear in support of Wes Barry as "Dinty" O'Sullivan are a Chinese youngster and a jolly little pickaninny. In the chief supporting roles are charming Colleen Moore, J. Barney Sherry, Pat O'Malley, Marjorie Daw and Noah Beery. Romance, pathose, humor and thrilling adventure makes this one of the most extraordinary cinema productions ever filmed. Wesley Barry's smile, freckles and inimitable acting made him famous in "Daddy Long Legs" with Mary Pickford, and "Don't Ever Marry" and "Go and Get It," but his crowning achievement has undoubtedly b een made in "Dinty," under the masterful direction of Marshall Neilan. It is a motion picture triumph for both Barry and Neilan, and cannot fail to delight every man, woman and child who come to the Majestic Theatre to see it. "Dinty" has received the enthusiastic endorsement of critics throughout the country. 'Nuf said.

OUR JOB DEPARTMENT
IS ALWAYS BUSY—
THERE'S A REASON

BURROWED BY PRAIRIE DOG

"Devil's Corkscrews" Found in Western Mountains and Plains Are No Longer a Mystery.

Of the many fossils which have come out of the mountains and plains of the West, few have excited wider interest than the "devil's corkscrews," found, in rocks of the Miocene period, in northwestern Nebraska. They are usually white, and stand out clearly against the buff background of the rock which incloses them, often attaining a length of 15 feet, with many twists and turns, ending at times in a large bulb, with occasional side passages.

When first discovered it was thought that these gigantic "corkscrews" were huge petrified vines of some strange plant. Study of the "corkscrews," however, failed to reveal any traces of plant structure. Later the skeleton of an animal like the badger was found in a large bulb near the end of the "corkscrew," and bones of a small camel and small deer were found in others. After that it was discovered that many of them contained bones of a small burrowing animal about the size of the western prairie dog. Excavation of actual recent prairie-dog burrows, after filling them with thin plaster of paris, showed an interesting fact: the burrows of the prairie dog and the prehistoric "corkscrews" were closely similar. The mystery is considered solved.

SHOWED SKILL AS ENGINEERS

Ancients Did Remarkable Work Considering the Limited Mechanical Means at Hand.

That ancient Greek and Roman engineers were ingenious as well as skillful is proved by the works that are still extant, for instance when the Eupalinos, island of Samos, waterworks mentioned by Herodotus were constructed in the middle of the Sixth century B. C., a tunnel about one mile long was driven through the Kastro mountain, certainly a respectable achievement when one considers the limited mechanical means at the disposal of the builders. From the books of the Alexandrian mathematician Heron, one sees that ancient engineers knew how to figure beforehand the direction of a tunnel. The fine medical instruments, of which many have been excavated, give evidence of high mechanical skill. Ancient instrument makers manufactured clepsydras (water clocks) that could be carried in pockets and devices used by Herophilos to measure the temperature of patients. The present-day slot machine and taximeter are imitations of similar ancient inventions. Even to ballistic war machines ancient people applied ideas which play an important part in modern warfare—the "polybon" being in a certain meaning, the predecessor of our repeating arms, and the "monankon," of the mine thrower.

Credited With the Word Bohemia.

The novelist to whom nature owes the word bohemia—not in the geographical sense, but a moral condition—was perhaps Henri Murger, if the word can be ascribed to any one writer.

Henri Murger novelist and poet was born March 24, 1822, in Paris. He made attractive to his readers the irresponsible life of artists and students in Paris and left some classic tales and songs of dissolute thriftlessness and literary impecuniosity. Murger was trained for the profession of law, became for a time secretary of Count Leo Tolstoy but, like that earlier bohemian, Villon, he chose dissipation rather than decency. He died in a charity hospital in Paris in 1861. A monument has been erected to his memory, but not without protest. Several of Murger's songs have been translated by Andrew Lang in "Ballads and Lyrics of Old France," published in 1872.

Printing Stamps by Millions.

Few labor-saving machines are more ingenious in combining a number of operations, or more impressive in the amount of work they do, than the new stamp-printing presses of the United States bureau of printing and engraving. Each press, with two operators, moistens, prints, gums and rolls a total of 4,000,000 postage stamps in an eight-hour day, states an article in Popular Mechanics. The perforations are made both lengthwise and across, both the roll and the punches being adjustable for position. One operator, in front, takes care of the unwinding roll and adjusts its path to the perforators by means of a screw. The other operator, at the rear, regulates the speed of the machine and inspects the finished work. Finally, the roll is cut into sheets of 400 stamps each.

Keep Pace With the Child.

When the child is a tiny creature, the parent must exercise self-control, sometimes—not—never allowing her judgment or conscience to interfere with judgment or cause her to speak harshly or in anger, says Mothers' Magazine. As years go on, the most loving child is also a critic. "Mother's way" has heretofore seemed to him the best way. It rests with the mother to make it seem so always. To this end she must keep pace with her boys and girls in thought, in education, in new ideas. Parents cannot go to school again, but they can have their minds alert and open for all new facts. And they can watch their own manners and language so that they [illegible] continue to use these [illegible]

Rheumatism Relief--25c.

Nature's Remedy (NR Tablets), Are Helping Thousands Who Tried Expensive Things Without Result. It's Guaranteed.

There are three vital processes of human existence—the digestion of food, the extraction of nourishment from it and the elimination of waste. Poor digestion and assimilation means failure to derive full nourishment from food and that in turn often means impoverished blood, weakness, anemia, etc. Poor elimination means an accumulation of waste matter which poisons the body, lowers vitality, decreases the power of resistance to disease and leads to the development of many serious ills.

Rheumatism,—due to some interference with the process of elimination, failure to get rid of certain body poisons,—cannot be expected to yield to any medicine that fails to correct the condition responsible for it. Could any reasonable person expect to rid himself of rheumatic pain as long as rheumatic poison is allowed to remain in the body.

Think of this. It explains the success of Nature's Remedy (NR Tablets) in so many cases where other medicines have failed. Thousands are using NR Tablets every day and getting relief. Why pay five or ten times as much for uncertain things? A 25c box of Nature's Remedy (NR Tablets), containing enough to last twenty-five days,—must help you, must give you prompt relief and satisfactory benefit or cost you nothing.

Nature's Remedy is not only for the relief of rheumatism. It improves digestion, tones the liver, regulates kidney and bowel action, improves the blood and cleanses the system. You've tried the expensive medicines and doctors, now make the real test. You'll get results this time. Just try it. Nature's Remedy (NR Tablets) is sold, guaranteed and recommended by your druggist.

Shorty gets an Earful!

Friday.

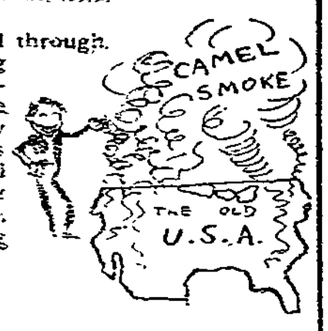
Howdy from New Orleans, PETE!

Say, old clock, you've got the time—maybe you'd like to hear this one! As we were rolling into New Orleans yesterday one of the men in the club car was recounting his cigarette experiences; how he finally pulled a trick on his luck and got set right!

"Well, I've had my cigarette lesson", continued the traveller, 'I went up and down the line on cigarettes until I got hold of Camels and got deep into their quality and mildness and delightful flavor! There never was a blend such as Camels combination of choice Turkish and choice Domestic tobaccos! I'll say it—*Camels taught me what a cigarette should be* and they'll teach any man who smokes!" Thinks I to myself — "Sic 'em, judge, every word you spill is a sentence!"

Now, Pete, that's the kind of Camel thanksgiving stuff you get North, East, South, West and through the middle! That's all as true as that little sheep will wag their tails!

I did some tall thinking as I browsed through the quaint old French quarter this evening —how universal the appeal of Camel cigarettes really is! Figure the travelling I've done and the people I've met — each city different from the other — AND Camels have been the ONE cigarette to be found everywhere—*and the cigarette most smoked at each point!* Pete, old backstop, it's wonderful the way smokers are sliding home to Camels!



Dallas, Texas, for me!

Yours

Shorty.

NO CLUES TO THE DYNAMITE OUTRAGE

There have been no new developments in the dynamite outrage. in which the printing press of the California Sentinel was destroyed early Monday morning. There have been no arrests and theowners of the paper have no clue as to the perpetrator of the deed. The paper, says H. L. Lamb, senior member of the firm, will appear as usual, although outside presses will have to be used for a couple of weeks.

GO NO FARTHER

The Evidence is at Your Door.

Charleroi proof is what you want and the statement of this highly respected resident will banish all doubt: Mrs. Geo Arnold 821 McKean Ave., Charleroi, says: "The first symptom of kidney trouble I had was a dull, heavy ache across my back. I had a run down, tired-out feeling that made me feel of no account. Every time I bent over it almost took my breath away to straighten up again, and then I would become dizzy and black specks would appear before my eyes. My kidneys acted irregularly which caused me a lot of annoyance, too. I was told to try Doan's Kidney Pills so I got a supply and after taking a few doses my back felt strong again. I continued the use of Doan's until I was cured of my trouble."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Arnold had. Foster-Milburn Co., Mfrs., Buffalo, N. Y

They Don't Need Much Sugar

Old fashioned housewives canned by the open kettle method, and required a great deal of sugar to keep the fruit. When sugar was scarce or high they canned very little.

The scarcity of sugar this year is making little difference in canning. The cold pack methot not only makes vegetable canning safe and advantageous, but it permits fruit canning to be done in a very light syrup. With our equipment, fruits may be safely canned without sugar.

We have all sizes Jars, Covers, Good Luck Jar Rings, Wrenches, Wax, Ladles, Funnels, Tops, Sieves and Strainers, Handy Jelly Bag or Strainer with table attachment; wood spoons, enamel, aluminum, tinned Basting Spoons, all sizes; Fruit Jar Racks, used in the wash boiler, Handy Fruit Jar Holders. Everything you will need for canning fruits and vegetables.
